Daily Times May 1, 1885

The Charlottetown Presbyterian will shortly be issued as a daily.

During the month of April 46 steamers of 67,759 tons and 36 sailing vessels of 6,626 tons arrived at Halifax.

The inland revenue receipts at Halifax for April show an increase of about \$3,500 over April last year. The Customs receipts were as follows: April, 1884, \$121,886; April, 1885, \$130,794; increase, 1885, 8,908.

STENOGRAPHIC.—Elias Longley, a veteran shorthand writer, teacher, reporter, and publisher of Cincinnati, has devoted his whole life to the art, and has largely improved Isaac Pitman's shorthand, since the vowel scale was changed by the latter. He has published many works devoted to the "winged art," among which are Books of Instruction, an admirable Shorthand Dictionary, Magazines, etc. Among the latter is the "Phonetic Educator," (\$2 per annum, single numbers 20 cents) devoted to Phonography and the Spelling Reform, and one of the best of the kind ever published, beautifully lithographed and printed, and of commanding interest to all stenographers, no matter what system they practice. Mr. L.'s adaptation of Isaac Pitman's system has been carried out on the eclectic principle, and is therefore read easily by phonographers generally. The changes he has made are real improvements, not useless alterations and innovations. His "Manual" and "Reporter's Guide," are almost unrivalled in their line, and conduct the pupil by easy stages to the acquisition of a most rapid and legible style of writing.

Scott's Emulsion of Pure

COD LIVER OIL, WITH HYPOPHOSPHITES.
Its Value for Women and Children.

DR. R. HAAS, Jersey City, N. J., says: "I have given your Emulsion to my little boy, of three years. He was in poor health, but he has not taken two bottles, and is improving both in strength and health. I have also recommended it to several of my female patients and they have derived much benefit from it."

and with the new... the Grits represented them, (ripe for rebellion) the French Canadians are loyal and true to their flag and country, and that instead of flying like they (the Grits) did at Perage, the volunteers are showing the same courage that their fathers did in a thousand battles, and when, instead of backing down as was fondly hoped by her enemies, England buckles on her armor ready if need be to confront a world in arms, the heads of traitors droop, and their blatant vaporings subside into hoarse murmurs of baffled rage and disappointed ambition.

CANADIAN.

Alma, Albert County, Notes.

A correspondent writes under date April 29: Mat hooking appears to be the chief occupation of our ladies just now. Whether it will be a physical gain to them the future will tell. This mode of disposing of the cast-off garments appears to be a laudable one, for by the aid of diamond dyes, perseverance and ingenuity, old apparel, otherwise useless, is converted into useful and tastefully designed floor mats and rugs.

The lumber mills in and around the village have commenced operations; doubtless a lively business will be done in the deal trade the next few months.

The "Clarine," Teare, and the "Amy J.," Alexander, have cleared with deals for St. John. The "Gondola," Martin, cleared with pilling for Boston.

John Bartlett and family, of Hastings, left this week for Auoka, Minn., where they expect to make their future home.

The Methodist Sunday School will be reopened next Sunday afternoon. The benefit of a Sunday school to any village cannot be too highly valued, for it seeks to supplement public and general education with the moral and religious influence of Christianity. For this object it secures the attendance of children from the higher as well as from the lower classes of the community, and enlists for their instruction a quality of talent and an amount of effort which money could never hire. The Rev. T. L. Williams will particularly address the children next Sunday afternoon. The children will sing a number of appropriate selections. A special collection will be taken. Proceeds will be used to procure papers, etc., for S. S. children.

D. D. Currie will deliver in the Methodist church one of his popular lectures, on or about the 20th May, at the close of which the ladies will provide refreshments.

Rev. T. L. Williams received the sad intelligence to-day that his father had died at Weston, Eng., on the 14th April.

should have consented to propose a plan for the settlement of the Afghan dispute of which the nation cannot approve.

It is reported at St. Petersburg that the Czar will shortly visit Cronstadt.

Advices received here state that a deputation of the inhabitants of Herat waited upon the Governor recently and desired him to inform the Ameer that the people would rather suffer the hardship of a long siege than surrender to Russia.

LATEST: ENGLAND AND TURKEY FORM AN ALLIANCE.

LONDON, May 1st.

It is stated Russia will positively accept England's proposition for an arbitration of Afghan dispute.

In the meantime warlike preparations are continued by both countries.

England and Turkey have formed an alliance, offensive and defensive. Turkey will let England use the Dardanelles in the event of war with Russia. England in return will hand over Cyprus five years hence and concede immediate favors in the Soudan.

The Tichborne Claimant.

DES MOINES, Iowa, May 1.

The Tichborne estate in England now possesses local interest for Des Moines. It will be remembered that about a year ago Orton was released from prison and again began the task of proving himself to be Roger Tichborne. Marshal Hafner, of Des Moines, among other peace officers, was corresponded with in relation to a missing witness, and some four weeks ago became satisfied that he had located him in California. In fact, the Marshal discovered another man that personally knew the witness, and had been assured by him that he could fully identify the claimant as Tichborne. This intelligence was conveyed to London by parties having the matter in charge, who immediately forwarded to him \$500 with which to prosecute the search for the witness. Accordingly the marshal sent the clerk of the police court to the Pacific Slope on this errand, and this morning was rewarded by a telegram from him, dated San Francisco, stating that he had been entirely successful in his mission, had seen the man and ascertained that his evidence would be all that was expected. Marshal Hafner to-day cabled the report to London.
